

# PARTH DOSHI

WEB DEVELOPER

Talented Mind with expert team leadership ,planning and organisation skills built during successful career. diligent trainer and mentor with exception management abilities and results-driven approach.

The description should focus on goals, objectives, and the overall approach, but you don't need to include lists of tasks, an extensive background, or research analysis.

## MY GOALS

Goals are a predetermined target that a business or individual plans to achieve in a set period of time. These goals are often split into short-term goals and long-term goals. Business goals can be general and high level, or they can focus on specific measurable actions.

## MY MISSION

A mission statement defines what line of business a company is in, and why it exists or what purpose it serves. Every company should have a precise statement of purpose that gets people excited about what the company does and motivates them to become part of the organisation.
